

What do Reading lessons look like at Chapel Allerton primary?

We teach children to read with understanding and comprehension through the use of our key skills,

VIPERS: Vocabulary, Inference, Prediction, Explanation, Retrieval, Sequence/Summarise.

The VIPERS skills are balanced with each lesson focusing on a key skill. Lessons include quick recall and quick reading; systems we have developed which promote retention of knowledge and reading stamina.

Children are also given opportunities for reading for pleasure within the classroom and in weekly visits to the school's library.
